

Montelago breezes through nature like soft, perforated lightboards harnessing light—it's living with nature in the gentlest of ways. We enrich landscapes, we enhance them. We scale our dreams to their barest essentials, connecting with our environs and space as we become a part of them, letting light through us like joyful heartbeats, like poetry, like song.

Total Land Area:
25 hectares

No. of Lots/ Hectare:
8 lots/ha
